

'SPECIAL' CORPORATE CHEQUES

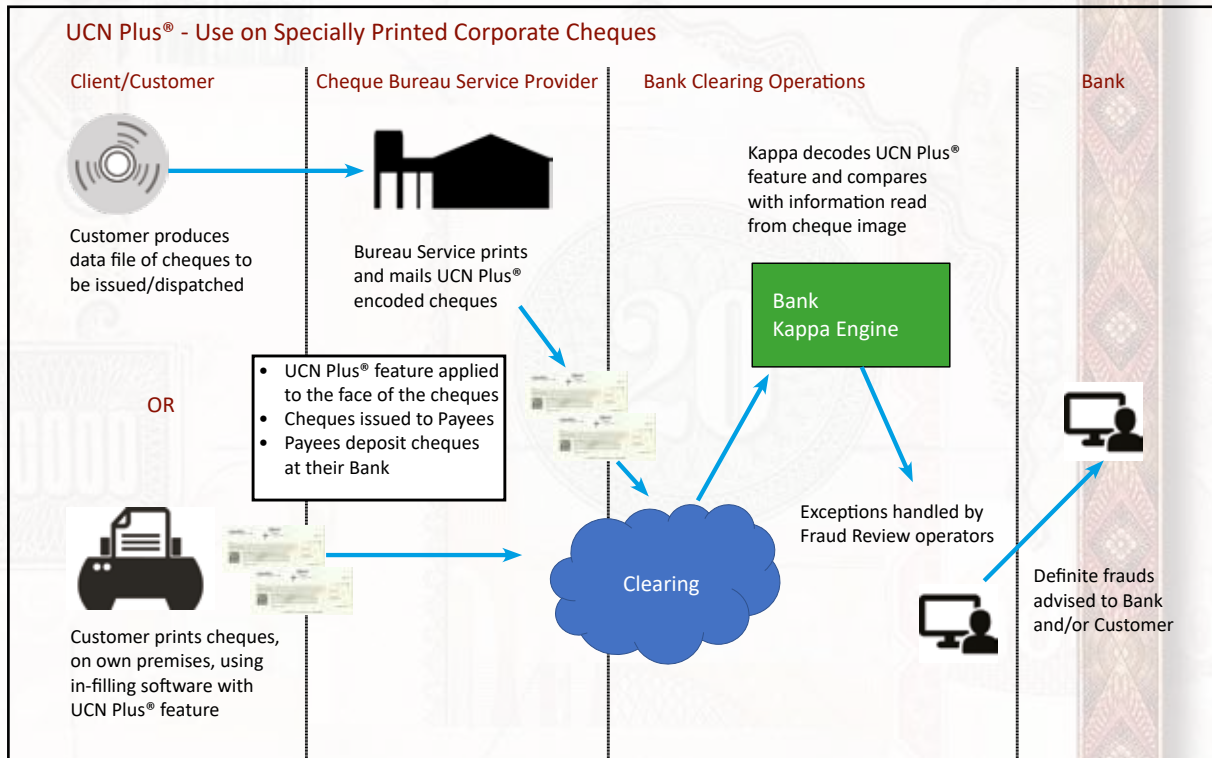

TALL, and your Bank, will guide customers through the process of ordering Special Corporate Cheques and ensure that they meet your bank guidelines. TALL design and provide secure cheque printing for both hand in-filled corporate cheque books and computer produced cheques on preprinted stock, in a range of formats and sizes (including A4 laser and continuous cheques), and a choice of background designs.

PRINT, PERSONALISATION & INFILLING OF SPECIAL CORPORATE CHEQUES

The TALL Group offers two methods of cheque production* with the UCN Plus® applied: -

- Customers can use the TALL Group's 'CheckPrint Solution™', a software based solution that enables customers' own in-house infilling of computer cheques including the addition of the UCN Plus®
- The TALL Group offers customers a 'Cheque Bureau Service' where cheque data is supplied to TALL who then securely manage the data to print, including the UCN Plus®, and then mail the cheques (where required) on the customer's behalf

*Please Note: Other cheque infilling software and bureau services are available

UCN PLUS® IMPLEMENTATION

Please follow the steps below to include the UCN Plus® on your 'Special' Cheques: -

1. Confirm that your Bank has the Kappa System UCN Plus® enabled and obtain approval from your Bank Relationship Manager/Director
2. Determine whether you use your own in-house cheque infilling software or a bureau service
3. Make contact with the TALL Group (details below) to confirm your intention to use UCN Plus®
4. Ensure your cheque infilling software supplier, or your cheque bureau service provider is UCN Plus® enabled. (N.B. TALL maintain a list of compatible software and bureau service providers)
5. Obtain a proof of the new layout of your Special Cheque, including the UCN Plus® QR Code, and approve/sign off for printing purposes
6. Go ahead!

For more information, please contact one of our sales offices below and we will be pleased to help you.
